PROFESSIONAL SUMMARY

Experienced software engineer with 4+ years of experience focusing on the software development with different programming languages. Confident communicator, strategic thinker, and innovative creator to develop software that is customized to meet a company's organizational needs, highlight their core competencies, and further their success.

WORK EXPERIENCE

June 2021 – Ongoing

CI/CD Developer

Ericsson AB
Ölandsgatan 1, 371 33 Karlskrona

- During my first year, I was working as a consultant from Experis AB
- Automate CI/CD pipelines to enable continuous integration and deployment of software applications.
- Write and optimize scripts (e.g., Python, Bash) to automate build, test, and deployment processes.
- Manage and resolve internal customer issues by providing support through a dedicated helpdesk ticketing system.

Tools & Technology Used: -groovy, python, json, jenkins, git, maven, kubernetes, docker, spinnaker, microservice

September 2018 – November 2019

Software Engineer

Swisslog Logistics Automation
Brodalsvägen 13, 433 38 Partille

- Worked with backend and frontend development.

Tools & Technology Used: -java, Spring, Jboss, json, weblogic, MSSql, jpql, sql, jenkins, subversion, maven, eclipse

June 2018 – August 2018

Summer Worker

Ericsson
Lindholmspiren 11 417 56 Göteborg

- Exploring Testing Strategies for Microservice-Based System In Continuous Delivery (5G)
- Writing python script to analyze JSON APIs and sorting results

PROJECTS

Swisslog Warehouse Management system (Sep 2018 – Nov 2019)

Project Description:(Platform: Windows, Language: Java, sql, jpql, json, maven and xhtml, Application Software: Eclipse)

We worked on a base product for automating the logistics of a warehouse. We developed different functionalities based on the customer requirements. In Swisslog, we have followed agile approach and used agile practices for completing different projects. There, I worked mostly as a back-end developer, where I needed to write code in JAVA. Besides, I needed to write unit test, system test and integration test.

Aviato (March 2017 – May 2017)

Project Description:(Platform: Windows, Language: Java, Application Software: Android Studio)

An android application; Which gives the user notifications, updates about his/her subscribed flights. Our team consists of 7 members. I was responsible for creating filters for airlines, time-interval filter, collecting data from an external API and displaying that information

EDUCATION

September 2016–May 2021

MSc in Software Engineering and Technology

Chalmers University of Technology, Göteborg, Sweden

SKILLS

- Computer skills**
- Programming Languages: JAVA (J2SE & J2EE), Groovy, Python, C, ReactJS (basic), C++ (Basic)
 - Databases: MSSQL, MySql, Oracle 10g
 - Web Technologies: HTML, CSS, XHTML, JavaScripts (Basic), JSON, Docker, Microservice
 - Java Frameworks and Tools: Spring, Hibernate, JBOSS
 - Web Application Servers: Apache Tomcat, Apache Web Server
 - Continuous Integration Tool: Travis-CI, Jenkins
 - Version Control: Git, Subversion
 - Mobile Application Development: Android
 - Development Platform: Windows, Linux

Mother tongue Bengali

Other Languages English: Proficient; Swedish: Intermediate

Driving licence B

ADDITIONAL INFORMATION

- Extra Curricular Activities**
- Position: Logistic host; CHARM Career fair, 2017
 - Role Played: Phadder; CIRC Welcome Reception Spring 2017
 - Position: Member (LBG Gothenburg); BEST (October 2016 – October 2017)
 - Participated Göteborgsvarvet 2018.
